

Improve Your Home Search with These 3 Free Apps

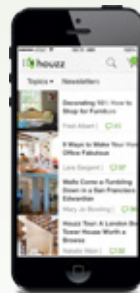

According to a recent study by Google, more buyers are using their mobile device during the home search than ever before.* In fact, millennials are twice as likely to look for real estate information on their mobile devices than other generations. Here are several apps you can download on your smartphone or tablet to help you during your home search.

House Hunter Pro

(iOS and Android)

House Hunter Pro allows buyers to save and compare information for an unlimited number of homes, score and prioritize the listings that interest them, take notes, and calculate their mortgage.

Houzz

(iOS and Android)

Houzz is full of home design ideas to help you put your own personal stamp on your home. Browse Ideabooks and articles by style, room and location, save images or articles to refer to later, and save images to create an inspiration board. The app also allows you to get in touch with design experts to ask questions.
